Report of Principal and School Improvement Council

Over the past year, the St. Andrew's Middle School community has made significant improvements to our school program through the hard work of our teachers, students, parents, support staff, and administration. The staff at St. Andrew's Middle School continues their quest to provide the best educational opportunities to help students achieve excellence.

We have continued formalizing our use of CCSD's Coherent Curriculum, which provided our teachers a blueprint for their professional collaboration during common planning conferences. We introduced a Voyager math and English program to target individual academic needs of our students through the continual monitoring of individual student data. We provided an after-school tutoring program, where students who need extra assistance in English Language Arts (ELA) and Mathematics met with certified teachers to work on necessary strategies in these areas. We provided a math intervention class and focused on low-level math skills based on MAP and PASS data. Our honors students had the opportunity to work in small groups as an intervention to improve our exemplary students.

Our students participated in basketball, cheerleading, football, volleyball, baseball, tennis, and track. Our related arts program included art, band, banking, marketing, entrepreneurship, health and physical education, and strings. We continued to implement our character education and positive behavior programs to improve discipline. We provided students with a stamp program for meeting positive behaviors focused on trustworthiness, respect, responsibility, caring, and fairness as good citizens. We continued our Intensified Learning Center as an intervention for disruptive classroom behaviors to encourage student success.

We participated in a professional staff development focusing on single-gender brain research and strategies to teach to male and female students. We also continued our professional growth in the areas of multiple intelligences, literacy, and middle-level philosophy. We also provided professional book studies to support our development needs, and practiced live exercises dedicated to school safety and security.

We have improved our Academic Rigor by providing high level problem-solving activities to challenge students. We offered students the opportunity to take algebra, English I, and virtual Spanish for high school credit. We continued with our single-gender education strategies this past school year focusing on two separate academies within our school. We provide a separate wing for female students and a separate wing for male students. We will continue all these successful programs for the 2010-2011 school year.
